Introduction: Health Improvement Opportunities in EZ/ECs.....	iii
Project Overview: EZ/EC Health Benchmarking Demonstration Project	v
Lessons Learned	
The sooner you know where you're going, the faster you'll get there	1
Communities need a road map and guide to improve health	2
EZ/ECs should identify a point of entry for all partners	3
Communities value an "honest broker"	4
The community should be ready to do it.....	5
The process creates a demand for health accountability	6
Planning and action often occur simultaneously	7
Clear communication is an ingredient of success	8
Health is a mobilizing issue that brings people together	9
EZ/EC health initiatives create opportunities.....	10
Politics and health meet at the EZ/EC table	11
Data should inform, not sidetrack, the process	12
Conclusion and Future Directions.....	13
Resources	15
