

Annual Catalog of TRAIN Courses with Public Health Preparedness and Response Core Competencies and/or Public Health Preparedness Capabilities

7/10/2014

Terrorism/Emergency Readiness Courses on TRAIN (2010-2014)

The [Public Health Preparedness and Response \(PHPR\) Core Competency Model](#), supported by the Centers for Disease Control and Prevention's (CDC) Office of Public Health Preparedness and Response, outlines core competencies that mid-level public health workers are expected to demonstrate to assure readiness, and provides a national framework for competency-based curricula and training as well as individual performance benchmarks to measure public health preparedness and response.

The [Public Health Preparedness \(PHEP\) Capabilities](#) are a set of 15 public health preparedness capabilities, developed by CDC and other federal agencies, that assist state, local, and territorial health departments in developing annual and long-term preparedness plans to organize and guide their preparedness strategies and investments toward priority areas within individual jurisdictions.

Both the PHPR Core Competencies and the PHEP Capabilities have been integrated into TRAIN, the nation's premier learning management network for professionals who protect the public's health. Course providers can assign the competencies and/or capabilities to their courses on TRAIN. By assigning one or more of the PHPR Core Competencies and/or the PHEP Capabilities that align to course content:

- Learners will be able to search for courses on TRAIN.org by core competency and/or capability to fulfill their educational needs
- Course Providers are helping assure that learners receive the appropriate training to satisfy their public health preparedness core competencies and/or capabilities needs
- Courses will be marketed to the target audience and/or over 780,000 TRAIN learners in need of the training(s) with preparedness core competencies and/or capabilities assigned to them.

To promote the use of the PHPR Core Competencies and PHEP Capabilities, this publication lists the courses on TRAIN that have PHPR Core Competencies and/or PHEP Capabilities assigned to them. The publication has been separated into two sections.

The first section contains a listing of all courses available on TRAIN National divided into three categories:

- Courses tagged with both the PHPR Core Competencies and the PHEP Capabilities. (70)
- Courses tagged with ONLY the PHPR Core Competencies. (11)
- Courses tagged with ONLY the PHEP Capabilities. (12)

The second section contains a listing of all courses available on TRAIN on the affiliate-specific level (by state) with the following information:

- Course availability by state (alphabetically)
- Course title
- Course ID
- The Core Competencies and/or Capabilities the course is tagged with:
 - both the PHPR Core Competencies and the PHEP Capabilities
 - ONLY the PHPR Core Competencies
 - ONLY the PHEP Capabilities
